MD SOHEL RANA

IT Officer-Infrastructure, Systems & Security

+8801613334930 | sohel.iqval@gmail.com | www.linkedin.com/in/sohelr60 | Savar, Dhaka, Bangladesh

CAREER SUMMARY

IT Infrastructure professional with over seven years of experience supporting enterprise IT operations in the manufacturing industry. Experienced in Windows Server administration, Active Directory, network infrastructure, firewall management, IT security policy & compliance, ERP administration and implementation, backup & disaster recovery, Nutanix virtualization, NAKIVO Backup & Replication, CCTV systems, and day-to-day technical support. Experienced in facing GSV (Global Security Verification) and C-TPAT (Customs-Trade Partnership Against Terrorism) security audits. Currently responsible for factory IT infrastructure, ERP users, endpoint security monitoring, and coordination with the Korea HQ IT team.

CORE COMPETENCIES

IT Infrastructure Management | Windows Server Administration | Network Administration | Active Directory | IT Security Policy & Compliance | Technical Support | CCTV Support | ERP Administration | ERP Implementation | Backup & Disaster Recovery | Firewall Management | User Access Management | Vendor Coordination | IT Troubleshooting | Cybersecurity Monitoring | GSV & C-TPAT Compliance

WORK EXPERIENCE

IT Officer | Dhakarea Limited (Yupoong Inc.) **2022 – Present**

- Manage factory IT infrastructure, including Windows servers and network systems.
- Monitor the SonicWall Firewall and coordinate with the Korea HQ IT team for firewall configuration changes.
- Manage and maintain 65+ network devices, including access points, routers, and switches, to keep network connectivity stable.
- Monitor and maintain Nutanix virtualization infrastructure and NAKIVO Backup & Replication, including daily health checks, backup monitoring, retrying failed backup jobs, and reporting to the Korea HQ IT team.
- Administer Windows Server, Active Directory, DNS, and DHCP services.
- Administer BizFlex ERP user accounts, roles, and access permissions, including user creation, modification, and deactivation.
- Provide ERP system support for over 220 users to ensure smooth production and business operations.
- Monitor cybersecurity threats and security alerts using Cybereason EDR, manage endpoint user accounts, review security alerts, and escalate security incidents to the Korea HQ IT team when required.
- Develop, implement, and maintain Information Security Policies and user access controls.
- Face GSV and C-TPAT security compliance audits, addressing IT, CCTV, and cybersecurity findings from prior audits.
- Conduct Information Security Awareness and Cybersecurity Training for employees.
- Manage desktops, laptops, and networking devices to support daily business operations.
- Troubleshoot hardware, software, and network-related issues, and coordinate with vendors for IT support and maintenance.
- Prepare and submit daily IT infrastructure, backup, and security reports to the Korea HQ IT team.

Assistant Teacher (English) | Kafiluddin Public School and College **2020 – 2022**

- Taught English to school students and supported day-to-day classroom activities.
- Prepared lessons and assisted with student assessments and academic activities.
- Supported students with English language learning and maintained a positive classroom environment.

IT Executive | Bengal Polymer Wares Limited **2017 – 2020**

- Managed day-to-day IT operations and provided technical support across the organization.
- Performed troubleshooting for desktops, laptops, LAN, and hardware-related issues.
- Installed, configured, and maintained computer systems and peripheral devices.

- Created, modified, and managed Active Directory user accounts, Microsoft 365 email accounts, and user access permissions.
- Administered Farvision ERP user accounts, including user creation, deletion, and access management.
- Provided Microsoft 365 and Outlook support, including email configuration and troubleshooting.
- Provided installation, configuration, and troubleshooting support for CCTV systems.
- Prepared and verified IT equipment procurement documentation and maintained IT asset records.
- Conducted basic computer training for employees to improve IT awareness and productivity.

KEY ACHIEVEMENTS

- Participate GSV (Global Security Verification) and C-TPAT (Customs-Trade Partnership Against Terrorism) security audits and resolved previous findings related to IT, CCTV, and cybersecurity, achieving zero findings in the latest audits.
- Fixed a CCTV compliance issue by setting up automated disconnect-alert emails and maintaining 30-day backup retention for all cameras.
- Managed and maintained 65+ network devices, including access points, routers, and switches, to keep network connectivity stable.
- Successfully supported the implementation and day-to-day operation of the ERP system for 220+ users.
- Improved endpoint security through continuous monitoring with Cybereason EDR and timely reporting of security incidents.

CYBERSECURITY & CTF EXPERIENCE

- Complete professional cybersecurity training and regularly practice in CTF competitions including KnightCTF, ByteCTF, and BatmanCTF.
- Practice network discovery, port scanning, and service enumeration using Nmap in lab environments.
- Perform basic web server assessments with Nikto and practice reconnaissance techniques, including subdomain enumeration, in lab environments.
- Familiar with Nmap, Nikto, Wireshark, Burp Suite (Basic), Exiftools, Exiv2, Maltego, Hashcat, Metasploit (Basic), and Wifite through hands-on labs and cybersecurity training.
- Continuously improve practical cybersecurity skills through TryHackMe labs, focusing on OSINT, network security, basic vulnerability assessment, and Windows/Linux fundamentals.

EDUCATION

B.Sc. in Computer Science and Engineering (Ongoing)
European University of Bangladesh
Expected 2026 | 10th Semester Ongoing

Diploma in Computer Technology
Naogaon Polytechnic Institute
2017 | CGPA 3.46

Secondary School Certificate (Science)
Malshon Girigram High School, Board: Rajshahi
2013 | GPA 4.44

CERTIFICATIONS with Credly

- Junior Cybersecurity Analyst Career Path Exam – Cisco Networking Academy | 2026
- Introduction to Critical Infrastructure Protection (CIP) – OPSWAT Academy | 2026
- Cybersecurity and Ethical Hacking – Itronix Solution | 2025
- Google Cloud Cybersecurity Certificate-Google | 2026
